

A united statement by Walton County candidates for Board of County Commissioners

We the undersigned candidates wish to make our opinions known:

Opposing Development MAJ20-000021 and

Supporting Cases PA 19-000003 and PA20-000001

We stand in opposition to the proposed plan to allocate a county right-of-way for a private driveway to Lot # 173-3 owned by Inlet Beach Capital Investments. This 1/3 acre lot is not landlocked and does not require this driveway for access. It already has 80 feet of frontage on Highway 98.

We are in support of the County abandoning the right-of-way over land that belongs to 40 other property owners as long as the county maintains sufficient right-of-way for underground public utilities.

Signed (in alphabetical order by last name)

Philip Cryar

Vanessa Goodson

Debbie Heard

William "Boots" McCormick

Dr.Carolynn Zonia

Last week I reached out to all of the candidates running for County Commissioner to explain our situation and seek their support. This list represents candidates who have responded by email as of noon on August 13, 2020. We will update this message as additional candidates respond.

Two incumbent candidates are unable to comment because they sit on commissions deciding this issue in August.
